

Becky Wintrone Memorial Grant

The Becky Wintrone Memorial Grant program was developed to commemorate the life and electrology career of our colleague and friend, Becky Wintrone. Becky worked hard juggling the demands of family and children while returning to school as an adult to earn her electrolysis licensure. Becky owned Anticipation Electrolysis Clinic and worked at River Rock Electrology Institute before her untimely passing after losing a long battle with cancer at age 36. This grant program is designed to assist other working mothers in achieving their personal and professional goals and earning their electrologist license.

Please complete this form and return it to the River Rock Electrology Institute with your Application Form if you wish to be considered for a grant. Recipients are chosen based on their commitment to their family, personal drive to achieve, and potential for success in the field, as demonstrated in their application essay.

If you would like to attach a single sheet with additional information or longer essay response, we will be happy to include that for the selection committee to review.

Name _____

Street Address _____

City _____ State _____ Zip _____

Telephone () _____ E-Mail Address: _____ Date of birth ____ / ____ / ____

Social security number _____ - _____ - _____ Note: All private information will be used for identification and verification purposes only

Name last school attended and degree/diploma earned _____
